## Give Your Employees the Tools to Safeguard Their Future

Dear Sir,

The other day, I received a call from a longtime client. She had called to say that despite getting diagnosed with breast cancer, twice in one year, she had peace of mind. Aside from receiving excellent healthcare, she and her family had one less thing to worry about. You see, her employer had offered them the AFLAC Supplemental Insurance program; and she applied for the AFLAC Cancer policy (not thinking she would ever need it). The monies she receives from AFLAC are helping to pay the expenses that her major medical insurance does not cover.

Because her employer wanted to give them the best selection of benefits and cared about their wellbeing, she and her family can now concentrate in healing and not worry about the medical bills. She says she can't believe how easy the claims process is and how quickly it pays—again, one less thing to worry about.

Let's set a date and time for us to meet at your office and I'll share with you what AFLAC has to offer; I will only take 20-minutes. The sooner we meet, the sooner your employees will be on their way to safeguarding their future. And the good news is, it's at no cost to your company.

Let your employees know that you care.

Best regards,

*Ana Bessy Hedman*  
AFLAC Independent Agent
